The Minneapolis Department of Health and Family Support and the University of Minnesota invite you to attend a community led workshop

**Story Based Community Dialogues, a tool for public health policy and program development**

The VOICE - *Valuing Our Individual Cultures through Engagement*

MDHFS and the University of Minnesota are committed to exploring storytelling as a way to engage with communities and achieve health equity. Stories can be powerful tools for influencing individuals’ behavior, sparking collective action and influencing decisions of stakeholders, partners, funders, and policymakers.
